

STAMP SETS & TRANSFER PUNCH SETS

NUMBER STAMP SETS

Manufactured from high quality steel, punches are through induction hardened, which gives durability and extended life even after repeated use.

The hardness at the stamping end is maintained at 58-62 HRC, the striking end is tempered to 38-43 HRC. This prevents the punch from splintering during use. The striking end is beveled to prevent breakage and accidents due to flying splinters.

■ NUMBER STAMP SETS
